SHIPPING

For orders under $500, shipping is $80 + tariffs, as fixed handling and shipping costs are higher for smaller parcels.

For orders over $500, we offer a reduced shipping rate of $50 + tariffs, so larger orders benefit from better pricing while still getting the same fast and reliable service.

Australia and New Zealand
For Australia and New Zealand, only one shipping option is available: Regular Shipping — $60, delivered via Australia Post. No additional payments are required.

Please note that we require up to 10 days to prepare your package before shipment.

While we always aim to provide the selected shipping method, express shipping is not always available depending on location or logistics conditions. If express delivery cannot be arranged, we will ship your order via regular shipping and automatically refund the price difference.

Bulk orders

If your total exceeds $ 500, you get 5% discount.
When your total exceeds $ 1000, you get 10% off.
When your total exceeds $ 2000, you get 15% off.
This type of discount works from your first purchase.

Bitcoin payment

For orders paid in BTC we provide **10%** discount, which can be added to other discounts.

So max discount may be 25%

Reship and Refund Policy

Due to increased customs restrictions and the significantly higher seizure risk for shipments to Australia, New Zealand, and some European countries, we have updated our reshipment policy to reflect the current shipping conditions.

If your original shipment is seized by customs, you may choose one of the following options:

50% Refund
You may receive a refund of **50% of the product value**. Shipping costs are non-refundable.

One Replacement Shipment
Instead of the 50% refund, you may choose **one replacement shipment**. The replacement products are provided free of charge, while the customer is responsible only for the shipping cost.

Please note that if you choose the replacement shipment and it is also seized by customs, no refund will be provided for that order.

Additional Replacement Shipments
If you request another replacement after the replacement shipment has also been seized, we can provide an additional replacement at **50% of the product value**, plus the applicable shipping cost.

Delivery Conditions

Please note that our reshipment policy does not apply if the shipment could not be delivered due to an incorrect shipping address provided by the customer or because the recipient failed to collect the parcel and it was returned by the carrier.

For security reasons, our shipments use a non-functional return address. As a result, any parcel returned by the carrier cannot be recovered and is considered lost. If you notice any mistake in your shipping address or need to make a change, please contact us as soon as possible before your order is shipped.

A shipment is considered lost if it has not been delivered within **40 days** from the shipping date. This does not apply to shipments delayed due to remote island destinations, severe weather, customs processing, or other force majeure events.

We are not responsible for products damaged during transit. If your package arrives visibly damaged, please contact us immediately with photographs so we can review the situation.
